March 2025 - RETAIL

Self-Inking Stamps

Self-inking stamps will produce thousands of impressions without re-inking. Easily re-inkable and information can be changed on the stamp. Ink pad is built into the stamp and mechanically re-inks the die.

Pre-Inked Stamps

Pre-inked stamps do not need a separate stamp pad because the ink is in the stamp. You'll get clean, crisp impressions every time you use your MaxLight pre-inked stamp. After thousands of impressions, just re-ink your stamp for thousands more.

Hand Stamps

Traditional stamps do not use a pre-inked die or self-inking mechanism. They require a separate stamp pad for inking the impression die.
